## SUMMARY

As a front-end developer, I am dedicated to constantly improving my skills. I have a strong work-ethic and I always strive for more. I also thrive in group-work environment, going above what is needed to ensure the successful completion of high-quality projects. I have strong communication skills, I can communicate my ideas effectively to both technical and non-technical groups. I am confident that I can continue to grow my skills in any group project.

## WORK EXPERIENCE

### University Project - Work with an Artist

*Feb 2022 to June 2022*

- We were given the task of creating a website for an upcoming artist. There were multiple meetings with the artist where he gave his remarks and we had to tailor to website to his needs.

### University Project - Work with a Company (LiveWall)

*Sep 2022 to Feb 2023*

- We had the assignment of creating a website based on 3 given topics. We chose digital interaction.
